SUMMARY

I am a highly skilled full-stack web developer and graphic designer with a strong artistic sense. I specialize in creating modern, responsive web applications and visually stunning graphics, using a variety of web development technologies and frameworks such as HTML5, CSS3, Bootstrap5, TailwindCss, JavaScript, jQuery, Laravel, Node.js, and API. I am also proficient in industry-standard design software such as Adobe Photoshop, Illustrator, Premiere pro, and After Effect. I am dedicated to delivering high-quality work and exceeding client expectations. My passion for creativity and innovation inspires me to continuously improve my skills and expertise, ensuring that I am always up-to-date with the latest trends and technologies in web development and graphic design.

PROFESSIONAL EXPERIENCE

◎ I have been freelancing as both a graphic designer and web developer since 2020.

In addition to my experience in design and programming, I have also worked as a content writer for various clients. In this role, I wrote content and reports covering a wide range of topics. Through this experience, I developed strong research and writing skills, as well as the ability to communicate complex ideas in a clear and engaging manner. I believe that my experience in writing and content creation would be a valuable asset for any project that requires both design and written content.

◎ As a freelance graphic designer

I worked on Tools Adobe creative suite [Photoshop, Illustrator, Premiere pro, After Effect,Xd, and InDesign], CapCut, and Figma.
You can find my latest design work categorized and arranged on this page: [https://dely22.github.io/HadeelJameel/].

As a freelance web developer, I have worked on several projects, including:

◎ Qitaf AL-Zafaran E-commerce | [09/2022 - 01/2023]

https://qitaf-alzafaran.com/

- (not released yet)
- I led a team of 4 developers using agile methodology and GitHub.
- We developed an online payment gateway, product filter, reviews, notifications, user
- dashboard, and admin dashboard.
- Our tech stack included HTML5, CSS3, Bootstrap5, JavaScript, Laravel, Pusher,
- MySQL, Liveware, and authentication using the Getstream package.

◎ Mokha Merchant Website | [07/2022 - 12/2022]

https://mokhamerchant.com/

- I led a team of 3 developers using agile methodology and GitHub.
- We developed a Yemeni platform for coffee promotion.
- Our tech stack included HTML5, CSS3, Bootstrap5, JavaScript, Laravel, Pusher, MySQL, multi-language using the mcamara/laravel-localization package, and authentication using the Laratrust package.

◎ Doroob AL-Mokha PWA | [04/2022 - 05/2022]

https://doroobalmokha.com/

- I built and designed the front-end PWA.
- I arranged and reformulated the content.
- Tech stack included HTML5, CSS3, JavaScript, jQuery, and PWA.

◎ Pharmacy Near Me Platform | [10/2020 - 12/2021]

- I worked with a team of 5 members using agile methodology and GitHub.
- We developed a platform for all Yemeni cities to make drug requests simple with client dashboard, pharmacy dashboard, and admin dashboard.
- Our tech stack included HTML5, CSS3, Bootstrap5, JavaScript, jQuery, Ajax, Laravel9, Pusher, and MySQL.
